

I am a narrative artist who has always been most comfortable in the art room. One of six children, I was born and raised in Dallas Texas. My family's travels included the Jersey shore, my grandparents' house in Florida and the 100-year-old family ranch in west Texas. Graduating with a BFA in painting from University of Texas at Austin in 1980 I have spent the last 30 years drawing the stories of my life and painting the landscapes of my travels to Dallas, Austin, Philadelphia, California and all the spaces in between.
